EXPERIENCE & PROJECTS

CRYSTAL CRUISES

Worldwide

Photographer, Editor and Printer

2015 - present

- Created digital and printed fine art products from raw professional photography using post-processing techniques like lighting and color correction as well as layout/template design.
- Designed customized photography albums for recurring customers, which strengthened the long-term relationship and increased sales by 30%.
- Mentored photographers improving their photographic techniques and incorporating the latest developments and trends, which raised the team's efficiency and level of professionalism.
- Optimized the team's workflow, delegating tasks and directing the photo team to cover activities and events.
- Introduced new-coming members to the company's policy and practices, which established a friendly and productive working environment.
- Influenced the organization and collaboration within the company, strengthening the relationship with other department leaders.

OCEAN IMAGES

Worldwide

Photographer, Editor and Printer

2013 - 2015

- Incorporated visually appealing products and customized packages, communicating and empathizing with our customers, which increased our sales by 20%.

- GitHub

EXPERIENCE & PROJECTS (CONTINUED)

- Improved and demonstrated a great knowledge of post-processing and printing tools, which got me promoted to editor and printer after only three months in the field.
- Generated a high photographic demand and maximized sales, applying new studio photography techniques, and showcasing a very good knowledge of lighting and composition.

PUBLIC RELATIONS & EVENT MANAGER

“Romantic Latin Festival”

2011 - 2013

Bucharest

- Organized two editions of an international dance festival, developing the overall layout and graphic design for advertisements, brochures, flyers and banners.
- Brainstormed and implemented event plans and concepts, handled budgeting and invoicing, and negotiated sponsorship deals, which conducted to a very successful event of 2.000 participants.
- Achieved a successful communication and branding, identifying trends and interests, establishing and maintaining relationships with consumer and public interest groups.

CAREERFOUNDRY

Berlin, Germany

UI Design & Frontend Development

2020 - 2021

- Created six projects from scratch during my ten months course, exploring the key steps in the UX design process, from user research to wireframes and user testing, applying advanced UI skills, and concluding with presentation mockups and handoff.
- Developed my own responsive website from scratch, currently hosting my portfolio, showcasing newly acquired skills in HTML, CSS and Java Script during the two months Frontend Development course.
